To Whom It May Concern:

It is with great pleasure that I recommend Heidi Raki. I have known her for five years. Heidi and I work closely together and have developed a strong friendship. She creates meaningful technology lessons for my kindergarten students and all of the other students in our school. Heidi has always displayed a high degree of integrity, responsibility, and ambition. As Heidi's mentor during her coursework for her Master's degree, I have firsthand knowledge of her determination to make meaningful goals for herself and her students. She constantly is self-reflecting on her lessons and choices that impact her students. She is definitely a leader rather than a follower. In addition to her excellent scholastic accomplishments, she has proven her leadership ability by planning in-services and creating a support system for our fellow teachers and parents in our community to improve their technology skills.

She is a dependable team player. Her good judgment and mature outlook ensure a logical and practical approach to her endeavors.

Heidi would be an asset to any school. While I will personally miss her, I am happy to give her my wholehearted endorsement and strongly encourage you to add her to your staff.

Sincerely,

Margaret Gustafson  
Kindergarten Teacher
